we live in a world made by science how and when did this happen this book tells the story of the extraordinary intellectual and cultural revolution that gave birth to modern science and mounts a major challenge to the prevailing orthodoxy of its

history before 1492 it was assumed that all significant knowledge was already available there was no concept of progress people looked for understanding to the past not the future this book argues that the discovery of america demonstrated that new knowledge was possible indeed it introduced the very concept of discovery and opened the way to the invention of science the first crucial discovery was tycho brahe s nova of 1572 proof that there could be change in the heavens the telescope 1610 rendered the old astronomy obsolete torricelli s experiment with the vacuum 1643 led directly to the triumph of the experimental method in the royal society of boyle and newton by 1750 newtonianism was being celebrated throughout europe the new science did not consist simply of new discoveries or new methods it relied on a new understanding of what knowledge might be and with this came a new language discovery progress facts experiments hypotheses theories laws of nature almost all these terms existed before 1492 but their meanings were radically transformed so they became tools with which to think scientifically we all now speak this language of science which was invented during the scientific revolution the new culture had its martyrs bruno galileo its heroes kepler boyle its propagandists voltaire diderot and its patient labourers gilbert hooke it led to a new rationalism killing off alchemy astrology and belief in witchcraft it led to the invention of the steam engine and to the first industrial revolution david wootton s landmark book changes our understanding of how this great transformation came about and of what science is

god speaks by his spirit through the bible about his son this is one of the most crucial things for any christian to get to grips with if we understand how god speaks then we can truly know him everything else slots into place we see jesus clearly we fall in love with him more deeply we make sense of our world but get this wrong and we lose it all this book covers the whole sweep of the subject from start to finish it puts all the parts of the jigsaw in their proper place yet mixing our metaphors it s also an appetizer whetting your palate for more

the bible prophetically warns that in the last days false teachers will introduce destructive lies among the people their purpose is to bring god s truth into disrepute and to exploit believers by telling them made up and imagined stories see 2 pet 2 1 3 such a lie is among us that lie is evolution today many laypeople ministers and christian educators are powerless in their presentation of the gospel they have rejected genesis the foundation of biblical doctrine they have believed the modern origins myth evolution if you believe that genesis is not important to presenting the gospel this book is for you if you believe that what you think about genesis does not affect you personally this book is for you if you believe that evolution can be made to fit the bible this book is for you if you are a witnessing christian seeking to bring the gospel to this spiritually drifting world this book is for you
